LATE WASHINGTON INTRODUCTIONS

BOBBE DEAN (H. Smith) — Formal Decorative — One of the finest cut flowers it has been our pleasure to grow, winning prizes as the Best Basket of Dahlias at the Western Washington Fair in 1936 and the Best Basket of Formal Decorative Dahlias at the Portland, Ore., Dahlia Society Show, for us. The color is a soft apricot orange with the blooms of Jersey's Beauty type on long perfect stems, making a wonderful dahlia for basket and bouquet work. The blooms are six to eight inches across and five inches deep, with the petals curving back to the stem when in full bloom. Scored 85 at East Lansing Trial Gardens in 1935-----\$5.00

DAD SMITH (H. Smith) — Formal Decorative — Soft red petals, heavily edged with golden yellow, form a striking flower on a long stem held well above the foliage. It is classed as a cut flower, the seven-inch blooms and long keeping qualities making a fine dahlia for baskets and bouquets. This dahlia has won many prizes for us -----\$2.00

HAPPINESS (Lee) — Formal Decorative — A very striking dahlia of bright begonia rose with a zone of lemon yellow at the base of the petals. The petals fold forward, showing the silvery pink reverse in a pleasing way. Good strong stems hold the large blooms out of the bush. If you are looking for a dahlia that is different, this is it-----\$5.00

HI-LITE (Lee) — Informal Decorative — A large velvety carmine dahlia, shaded with rose red, lightly tipped with gold and the reverse petals silver. The petals are rather sharply pointed and twist and curl at the ends, giving a beautiful formation. The blooms are ten to eleven inches in diameter and of good depth, while the stem is long and very strong. A real beauty-----\$5.00

WENOKA (Hulin) — Formal Decorative — One of the big formals, on a cane-like stem, that is a knockout. The color is rosy mauve or deep magenta. The ten-inch blooms and beautiful dark foliage make a fine showing in the garden. We have won many prizes with this one -----\$5.00
